Terminal District Auction

FRIDAY, DECEMBER 12, 10 A. M.

The Terminal District is a tangible, logical situation with a definite purpose. The railroads have grown around it and developed it up until they have fairly crowded value into it.

Forrest Adair says that its proximity to the business section makes it a property with a positive value and a positive purpose. E. P. Ansley says that the Terminal District has just been awaiting an opportune time to develop to its fullest height, that that time has now arrived and that within two years this section will be tremendously built up.

R. F. Maddox says that by drawing a radius of 300 miles around Atlanta, which is a reasonable distance, figuring on the time required for mail to leave one city after the close of business to arrive in the regional reserve city by the opening of business the following morning, such a circle will include the States of Georgia, Alabama, Tennessee, Florida, and a part of Mississippi. In that circle is a population of 10,000,000 people. It takes in a section growing 6,500,000 bales of cotton, with approximately \$400,000,000 deposits. Atlanta, by virtue of having fourteen independent lines of railroads radiating from it to practically every point of the compass, becomes the logical center for the business of that section in respect to the establishment of the proposed regional bank.

For the following points within this circle, there are about 200 "Package Cars" leaving Atlanta each day over the Southern and A. B. & A. Railroads:-

These cars leave Atlanta every day between 5 o'clock and 10 o'clock P. M., running on regular schedules, and give a better and safer service than the express companies. A merchant or manufacturer, if he has as much as 10,000 pounds of freight for one of these points, can have one of these cars placed at his back door in the Terminal District, and load his goods direct to his customers without any further handling by truckmen until the freight arrives at its destination, and without switching charge.

This Package Car service is moving big concerns to Atlanta. A shipper showed the writer where he was able to deliver goods quicker from Atlanta to Lynchburg, Va., than he could from Greenville, S. C., to Lynchburg, because of our Package car service.

There is no denying the fact that the Terminal District is just beginning to come into its own. Walker and Nelson streets will be widened twelve feet.

The Terminal District Improvement Club is arranging these matters now. It is a section where there are plenty of moderate priced homes to rent to the employe.

It is in the heart of Atlanta. This is the logical time to buy.

This season will see many of the speculators and investors move back to the centers and make their investments.

After a city has had a few years of developing on the outskirts, there is always a reaction and the centers come in for their part. The centers are the known revenue earners.

Terms: One-Fourth Cash, Balance One, Two, Three, Four and Five Years, Six Per Cent Interest. Any Buyer Can, If He Desires, Have Until January 10th To Make His First Payment.

A Little Reasoning About Atlanta and the Terminal District

Every cotton mill of the New England States is wearing out; some have worn out; and as fast as this happens, they are moving to the South to be closer to the raw product.

Every automobile builder now needs either a warehouse or a branch factory situated on railroad tracks to distribute in this Southern territory.

Cheap power furnished by the Georgia Power Co., and in unlimited quantities, is the "smokeless powder" of commerce that will forge us ahead.

A regional bank in Atlanta with the backing of \$400,000,000.00 deposits will finance all our undertakings, and more.

Fifty million more people in twenty years in the South will more than double the value of the Terminal District.

Hundreds of millions invested in fourteen railroads, with industrial departments pushing us ahead, is all working in the direction of the Terminal District as a center.

All of Atlanta, the New York of the South, with all of her men and women, the liveliest citizenship in the world, make for us the Atlanta Spirit, a commodity that is always at par.

Don't forget the time, 10 o'clock, a. m.

Says:
 "The man who buys and builds on this property will find a tenant waiting for him. I have urgent requests in hand now for more than 200,000 square feet of space in this Terminal District which tenants will lease on a splendid interest basis. I have several applicants who want ten-year leases with the privilege of purchasing.

EPOCHAL RESPONSIBILITY.

President Wilson has tentatively launched his program for trust regulation in a recent conference with the democratic members of the house committee on judiciary he outlined a provisional procedure touching the fundamental aspects of the question.

But the need for action is apparent, the need for caution is imperative. There can be no question that the nation has had, and now is having, a surfeit of legislation on the great fundamental issues that confront us.

Mr. Carnegie says: "This world is heaven," but Deacon Rockefeller went in another idea of sheets of gold in another one.

The suffrage women didn't worry Wilson long, and congress is too hard at work to take notice.

General Villa has fallen for the films and is posing for pictures. If he don't watch out Huerta will steal a march on him.

As a war correspondent Huerta is as widely unreasonably as he is in his presidential capacity.

Vice President Marshall has been talking about the money question. Now he is getting into it.

Old Man Crisp is getting too feeble to limp off the Mexican map.

The high cost of living has hit the German Kaiser. Perhaps that's the reason he reduced his beer bill.

parrelling vivisection we owe such gains as our practical conquest of diphtheria and hydrophobia, and the promised conquest of ceroidosis.

There is no danger that humanity, misled by makeshiftness, will pit the lives of animals against the lives of human beings. It is that vivisection and animal experiments signify. For if animals and their use were barred from the laboratory we would deal with it as we would with a man.

THE WARNING NEW HAVEN.

If any final warning were needed to turn railroad men from the practical application of practices of the past, the complicated circuit now confronts the New Haven railroad supplies it. For the first time in the history of the New Haven railroad.

Almost concurrently with its action in passing a dividend, the New Haven is making tentative arrangements looking to the flotation of a huge issue of securities for the purpose of undoing the consequences of gross neglect of the past.

The case of New Haven concentrates in its various features the weaknesses of railroad operations for the past twenty years, weaknesses that still vitiate their penalties and opportunities.

It is of course too late to cry over spilt milk, and it would be folly to attempt to pull the railroad for the sins of the past.

It is estimated that the huge sum of one billion dollars will be required to rehabilitate American railroads. That amount turned into the channels of trade will insure an era of universal prosperity.

A magazine article is entitled "The Poetry of Christmas." Some of it is said by its author to be in his own words.

The suffrage women didn't worry Wilson long, and congress is too hard at work to take notice.

COTTOLENE
CONTAINS NO
COCAINE
USE 1/3 LESS

Here is what Marion Harland said in 1906 about **Cottolene**

"Many years ago I discontinued the use of lard in my kitchen and substituted for it, as an experiment, Cottolene, then comparatively a new product. Since my first trial of it I can truly say that it has given complete satisfaction. I honestly believe it to be the very best thing of its kind ever offered to the American housekeeper."

MARION HARLAND.

Cottolene makes biscuits that are tender when they are cold—that is a sure test of a good shortening. Try it yourself. Make the biscuits like this:

BAKING POWDER BISCUITS
2 cups flour, 3 teaspoons baking powder, 1 teaspoon salt, 4 table-spoons Cottolene, 1 cup milk. Sift flour, salt and baking powder together, rub in Cottolene; mix lightly and quickly; mix about one-third dry roll out on board, cut into small biscuits, bake ten to fifteen minutes in hot oven. To make biscuits richer, mix with cream. Whole wheat, Graham or rye biscuit may be made in the same way.—Edith L. Child.

BLACK FREED OF CHARGE OF CRIMINAL ASSAULT

Young 14-Year-Old White Girl Made Contradictory Statements on Stand.

Worcester, Ga., December 11.—(Special.)—Following the most sensational trial known in Ware county in years, William Young, a negro, charged with criminally assaulting a 14-year-old white girl in the Warren district, was acquitted in superior court. The defense tore down the allegations of the prosecution, and the girl, who spent some time in the stand, made contradictory statements at the very start caused doubt to exist as to the truth in the case.

J. J. Bird, father of the girl, is a prisoner in jail, charged with shooting Young. Bird claimed to shoot Young in an effort to prevent his escape. Young denied the charge at the start and said he was shot without provocation. Insinuations that may have been made by attorneys interested in the case, that the girl was not a virgin, tried in Ware in 1908, and is one of the daughters of the late Mrs. W. J. Young, was turned loose after being charged with such a crime.

ACCUSES DETECTIVE OF ROUGH HANDLING

Complaint Against Coker is Made to Mayor Woodward.

William W. Sykes, a collector, employed by the Atlanta Gas company, called on Mayor Woodward yesterday afternoon to bring charges against Detective Coker. Mayor Woodward referred Sykes to Councilman A. R. Colcord, who advised that Sykes lay the facts before Chief Beavers.

"I laughed and told him that I was ready to go. Coker grabbed me out of the chair and what was the trouble. I asked him what was the trouble and he said that I would find out when he got my pockets he showed me what he had done and what he was looking for. He said that he had not heard of a gun on me."

For years the South turned down new brands of cigarettes by the dozen. Then came SOVEREIGN and made the greatest success the South has ever known—"QUALITY TELLS"

Southern smokers know quality. That's the answer. SOVEREIGN is absolutely the best cigarette of Southern-grown Old Belt tobacco ever produced.

SOVEREIGN is made of the very finest Virginia-North Carolina tobacco that ever came out of the Old Belt district—aged and blended to a new degree of smoothness and mellowness.

SOVEREIGN is the one cigarette of straight domestic tobacco that does not require constant relighting,—that does not char and grow soft and soggy as you smoke.

SOVEREIGN is rolled in the most expensive cigarette paper ever imported from France. This fine paper burns evenly with the tobacco, insuring complete enjoyment.

Try SOVEREIGN and you will understand why the sales are rapidly growing—breaking all records for popularity.
