JAPANESE EMPEROR HAS BECOME SUDDENLY ILL

Yoshihito Suffers From Inflammation of the Lungs and High Fever

(By Associated Press.) TOKYO, May 22.—Empress Yoshihito in attendance declares that he is suffering from inflammation of the lungs. The emperor of Japan succumbed his father in July, 1912. He is in his thirtieth year and has three sons, the eldest of whom is Crown Prince Hirohito, just twelve years old. The emperor has previously suffered from lung ailments, forcing him to resign his duties in 1905. On May 18, it was announced it was not so serious as it had been reported. Tonight the fact was made known by the official bulletin from the imperial palace signed by the chief court physician. The emperor, who has been suffering from a severe cold, is reported to be in a dangerous condition. His temperature is high.

JAPS SAY AMERICA'S ANSWER TO PROTEST IS UNSATISFACTORY

Declares Adam Bede

(Special Dispatch to The Journal.) WASHINGTON, Ga., May 22.—There is little prospect of Japan going to war with the United States because of the differences that have arisen over the settlement land law in California, said former Congressman Adam Bede, of Minnesota, in Wazooza today. He is here en route to Savannah to take part in a debate in that city with former Mayor Bede, a socialist of Milwaukee. Mr. Bede is satisfied the United States will not back him in fighting in event the Japanese get ready about the California matter, and says our country will whip the Japanese. "Japan is not a nation to fight us, and there is not a nation anywhere that is as strong as we are," he said, "and if we are in a position to fight us, we are in a position to fight them. It is not in our interest to fight with no prospect of our own country."

Kansas City Negroes Try to Lynch One Of Their Own Color

(By Associated Press.)

KANSAS CITY, May 22.—A mob of 500 negroes surrounded the Flora avenue police station in the negro quarters of Kansas City today, howling for the death of Walter Robinson, one of their race, who last night confessed the police say, to slaying his wife and daughter with a hatchet last Saturday night. After a determined stand by the police the negro was hustled through the mob to a motor car and carried to police headquarters. The negro, armed with clubs, appeared the station and one of their number was sent in to demand that Robinson be turned over for them to "deal" with. A squad of police was sent from headquarters, but when it arrived the emissary had been thrown into the street and the patrolmen regularly stationed at the precinct office had, with drawn revolvers, covered the mob. Jennie Hill, a negro woman, in the confusion Robinson is said to have implicated in the murders, was confined in the women's cell in the same police station. Her screams could be heard above the mob's cry.

study of finger print identification methods. He declares that while here he will try to induce local bankers to adopt the fingerprint method of identification of depositors, which is now in use in a number of cities in the east. Phagan gave some remarkable demonstrations Wednesday of his ability to identify finger prints. Friends of the expert say that he had been called into the case at the first he undoubtedly would have been able to eliminate any innocent suspect. Now, however, the matter is being handled by Mary Phagan's body, which has been sent to the city for several days. It is probably that any marks of the original writer have been eliminated. By sprinkling a certain powdered preparation over a sheet of paper, Phagan raises the finger prints, which he readily identifies. A Phagan came here at the request of C. W. Tobin, a negro, who, in the case of the Southern Bank, and probably will remain in the city for several days. Interesting in connection with Mr. Phagan's work on the case is the statement of C. W. Tobin, the Burns' investigator, that one of the features of the case which he has informed had been overlooked, was an effort to get the day's work and shoe prints.
