MORSE TO SUE BANKERS WHO SENT HIM TO PEN

Asks Congressional Probe of All Circumstances Leading to His Conviction

WASHINGTON, Jan. 8.—Charles W. Morse, the former "ice king," one of the most spectacular figures in modern American finance, and the principal actor in a drama that lasted for a half dozen years and carried him from the banking regions of New York to the Atlantic peninsula, is about to write another chapter to his story.

After months of investigation and labor, Morse is trying to launch an investigation into the circumstances leading up to his conviction six years ago of violation of the national banking laws.

Morse had a talk with Senator Hoar of Idaho, who has long been interested in him the need for an investigation of the case against him.

Mr. Morse was sent to the Atlanta penitentiary to serve a fifteen-year sentence. After a persistent fight led by his wife, Mrs. Morse, and other prominent persons, his sentence was commuted to three years.

Mr. Morse returned to the United States. Since his return, Morse has been making preparations to reopen in the court of public opinion, the case against him.

Morse is expected to adhere to his announced policy of allowing the American public to know the truth about the case.

Morse made donations to the purchaser of the stock of the American Ice Separator company, and was vice president of the bank of which he was vice president.

Morse is now understood to charge that the attorney who refused to allow him to see the report of the national bank commission, and to indicate that this report was confidential.

Morse was convicted in the federal courts in New York, and subsequently charged that jurymen who passed on the case were under the influence of liquor and that the entire jury was in the hands of impostors.

Morse is in his long fight to regain liberty. He has succeeded in obtaining his freedom and is now in New York, and it is not clear whether he will continue to bring the matter into the spotlight again.

TELEPHONE TRUST PLANS FOR DISPOSING OF STOCK

Final Decision in Wire Companies' Case May Not Be Reached in Weeks

WASHINGTON, Jan. 8.—Preliminary plans for the disposition by the so-called telephone trust of the \$10,000,000 worth of Western Union stock were under consideration today by G. C. Todd, assistant to Attorney General McReynolds, in charges of proceedings under the Sherman anti-trust act.

Mr. Todd is expected to announce his decision on the proposed plan to dispose of the stock of the Western Union Telephone and Telegraph company.

Negotiations have not reached the stage where a policy can be outlined, but it is known that Attorney General McReynolds will announce a pro-rata plan for the disposition of the stock.

The two railroads are not competitors for business, and it is not believed that the two companies are.

McReynolds and Elliott Want Congress to Wait on Department of Justice

WASHINGTON, Jan. 8.—Efforts to secure general consent that no steps will be taken toward a congressional investigation of the New Haven railroad's affairs until the department of justice has reorganized the property are being made by Attorney General McReynolds and Howard Elliott, chief of the New Haven system.

Correspondence between the attorney general and members of congress intended in securing a public investigation, indicates that resolution probably will be withdrawn for a time at least.

President Elliott had conference yesterday with Senators Weeks and Norris regarding a proposed bill.

Mr. McReynolds and Mr. Elliott ended at present night on discussion of the conditions as to embarras the proposed resolution.

No announcement as to New Haven matters was made when today's conference between Attorney General McReynolds and Mr. Elliott ended at noon.

ANNUAL SILK SALE

---Don't be misled by the little prices:
---With all the power of our pen we emphasize that these Silks are **not** odd pieces nor "tender" fabrics
Silks are **not** in broken color assortments
Silks are **not** the tag-ends from former seasons
---No!---these silks are **new!** Fully four-fifths of them were shown for the first time Friday.
Of the silks in the sale, half or more were bought from New York wholesalers under the most favorable trade conditions. The other half are the **Advance Shipment of New Spring Silks** Aside from a few silks from regular stock, therefore, every inch of silk in this sale is a-sparkle with **NEWNESS.**

\$1.50 Silk & Wool Poppins at 98c
---One can scarcely remember a season when these silk and wool poppins were not welcome. Soft and delicate in texture, the beauty of silk combines with the service of wool to make a fabric "par excellence" for all manner of charming spring gowns and frocks.
Choice is unlimited: there are tannes, grapes, London smoke; light and dark navy blues, Copenhagen and king's blue; tango, tan and buff; bistaria, lilac, amethyst and sapphire; red and cardinal; Russian green; black. 40 inches wide. Included on the same table are a few pieces of Egyptian crepe and printed radium. 98c

\$2.25 Black Cashmere Crepe at 1.29
---One of the choicest black silks from the French looms. Lustrant black cashmere crepe; soft and supple; splendid for swirling draperies. Favored for spring. 44 inches.
\$2 Black Crepe Meteor at 1.49
---This beautiful black silk, with the softness of crepe de chine and the sheen of charmeuse, is in high favor for spring. Just eight pieces reserved for this sale. 36 inches wide.

New & Stylish 59c Tear-Drop Nets at 39c
---Brand new; shown tomorrow for the first time. Sheer nets of chiffon, crystal crested. Can't you fairly see the possibilities for soft, gauzy spring gowns and blouses, and draperies, and dancing frocks? Very wide; 40 inches; a few yards is sufficient. Only 39c.
New spring shades are shown: maize, white, blue, Nile, light blue, pink. Crystal crested; sparkling like dewdrops in the sun. Another style in white is beautified with a gilt "tear drop."

New \$1 "Spotproof" Foulards at 69c
---You will need foulards this spring and summer. Will you buy them later at \$1, or now at 69c?
Choice of the newest, advance spring patterns in lavender, Copenhagen, Alice, amethyst, rose and reseda. Copenhagen blue, the favorite spring shade, is especially prominent. Neat designs, flower and spray designs. 23 inches wide. All these foulards are "spotproof."

\$1 Black Messaline at 75c
---Unquestionably the best \$1 black messaline in Atlanta. Soft and supple in texture; full and plump in weight. Drapes with classic grace. Yard wide. Buy a plenty at 75c.

\$1 New Spring Messalines at 79c
---You know this messaline. Because it is the best \$1 yard messaline in the South, we sell thousands of yards each year at \$1. Only for this January Sale have we dropped the price to 79c. Our entire advance spring shipment is included at 79c. There are 123 pieces in all, including every desired shade on the color card, as well as white, ivory and cream. You'll pay \$1 for this identical silk later; anticipate spring wants now at 79c.

\$1.50 Tussah Silk Crepes at 1.05
---A soft, crinkly crepe, clingy and easy to drape, but wonderfully practical withal. Imagine the cotton Serpentine crepe in silk and you have it. It has sold freely, but we still have brown, wine, tango, orange, light blue and gray. 42 inches.

\$1.25 Black Messaline at 98c

Annual Report of Chairman to Fulton County Commissioners

IMPROVEMENTS DURING THE YEAR WERE \$766,340.77

These Were in Road Paving, Grading, Sewer Work and Sidewalks in Atlanta and County Outside City.

TO THE BOARD OF COMMISSIONERS OF ROADS AND REVENUES OF FULTON COUNTY, GEORGIA.

Gentlemen: As Chairman for your Board during the year 1913, I have the honor to submit for your consideration the following Annual Report of the condition of affairs of Fulton County for the year ending December 31, 1913, also a list of the work done during the year.

As shown by the report of your Chairman for the year 1912, the Tax Digest for 1913 showed a taxable property returned to the value of \$11,778,918.00, and the tax rate fixed for that year was 45 cents on the \$100, the income from that source being \$5,350,511.10.

The income from the tax on the railroad and public utility and other corporate property and other sources, as reported from the office of the County Auditor, for the year 1913, is \$1,919,938.00, which at the rate of 45 cents on the \$100, makes a total income to the County from these sources of \$7,270,449.10.

The same arrangement continued with the taxes on the real estate to the effect that the County is allowed interest at the rate of 6 per cent on the amount of the taxes on the real estate which are not paid.

The system of drawing and collecting taxes has been provided during past years, and the system is being continued against any money whatsoever being drawn from the County Treasury for the purpose of paying the taxes on the real estate.

DISBURSEMENTS DURING THE YEAR 1913. The Board Year of the County extending from the 1st of October of one year to the 30th day of September of the following year, both inclusive, and covering the law, taxes, and other matters, is the period for which the disbursements are being reported.

Fulton County Facts From Chairman's Report

Fulton County doesn't owe a dollar outside of current monthly bills. Most public improvements were made in 1913 than in any other year of the county's history.

Road paving and grading, sewer and sidewalk work done in 1913 at actual cost prices, aggregates \$766,340.77.

Of these improvements \$280,982.19 were done inside the city limits of Atlanta; \$485,357.58 were done in the county outside of Atlanta.

Fulton County's total taxable property for 1913 was \$14,793,019, an increase of \$13,420,081 over 1912.

Fulton County owns lands and improvements thereon and other property conservatively estimated to be worth \$1,940,477.29.

All the county departments and institutions, including the chainpans under the public works department, the almshouse, the industrial farm, and the police force, are in good condition and have done splendid work during the year.

Chairman Smith recommends the purchase of a second steam boiler, two to four more motor trucks and a fleet of eight or ten automatic dump wheel scrapers. The work done by similar machinery, which the county now has, has been invaluable.

Other recommendations of the chairman include: Employment of an asphalt expert. Installation of a county police telephone system. Keeping detailed record of all punishments administered to convicts. Early completion of shower baths at county barracks.

PROPERTY OWNED BY THE COUNTY. The following is an inventory of the land and other property owned by the County, as of December 31, 1913, based upon appraisal made about 1912, and which was made by my predecessor, George W. Smith, and which is being continued by me.

Fulton County's Schools.

It is a distinctive tribute to Fulton county that sixteen of its schools have been awarded certificates of efficiency, a fact which means that they have measured fully up to the standard prescribed by the State Department of Education.

In order to secure a certificate of efficiency, a county school must meet certain requirements in respect to the teacher, the grounds, the building and equipment, associated activities, the salary of the teacher and the length of the term. It is required, for instance, that the teacher be thoroughly competent in his methods of instruction and school management are the test.

These requirements, though apparently simple when considered singly, make up an educational ideal which is an honor for any county school to attain and which, as a matter of fact, comparatively few have yet reached.

The Mexican situation concisely—peppered hash.

There appear to be just lots of things rather than fall day in January—in Atlanta.

There's nothing like the backing of your sister cities to get a regional bank, and Atlanta is being backed strong.

The Cost of Running Fulton County.

Expenditures for the upkeep and improvement of Fulton county last year amounted to a million, five hundred and ninety-five thousand, four hundred and thirty-eight dollars, an increase of some seven hundred and thirty-three thousand dollars over the preceding twelvemonth.

During the year the public works department is said to have maintained and repaired more roads, built more bridges, laid more sewers, graded and paved more streets and carried forward more improvements of every kind than ever before in the county's history.

The county's chief item of expense, however, is the new court house which will cost, when completed and furnished, a million two hundred thousand dollars. That is far beyond the original estimate of eight hundred and forty thousand dollars.

The high cost of marriage in Wisconsin has been reduced to ten cents a throw by one register.

A Regional Bank for the Southeast.

The Southeast is clearly entitled, under the present conditions, to a regional bank. To a federal reserve district and a regional bank. The interests of the States comprising this part of the Union are so great, so varied and distinctive that they could never be adequately served or duly protected except through a district of their own and a bank easily accessible to them all.

It is essential, however, that the cities and the business institutions of this section put together for their common interests in order that the Southeast may be assured of getting what it deserves.

There are cheering indications, however, that such will not be the case. The prevailing opinion is that Atlanta is the logical location for a regional bank in the Southeast.

The action of Macon and Columbus is to be commended not merely because of its favorable influence for Atlanta but chiefly because of its potent influence in the campaign to secure a federal reserve district and a regional bank for this great section of the Union.

Some people mistake notoriety for fame. If we sing our own praise we must provide our own echo.

Enough of Sir Lionel.

Sir Lionel Carden, the talkative British minister to Mexico, is to be transferred to Brazil, a significant shift which attests more clearly than all the words of diplomacy ever could England's substantial support of American policy in the troubled country across the Rio Grande.

It is gratifying to know that henceforth England will be represented in Mexico by an ambassador who will be more faithful to his nation's regard for a friendly Power.

Here's the sorrow of it: Even the hero who fought for his country is a dead one.

Mr. James R. Wylie.

In the death of Mr. James R. Wylie, Atlanta has lost one of its most admirable and highly honored citizens. The greater portion of his long and useful life was spent in this community and was devoted with peculiar earnestness and loyalty to the upbuilding of public interests.

His memory is honored by the public for all that he did and is cherished by his hundreds of friends for all that he was. He was a man of unflinching integrity, his radiant goodness of spirit and good.

ELIHU ROOT TO THE RESCUE

It is known that Elihu Root made what is called a general argument to the United States senate discussing the "sinecure bill" for currency reform. Mr. Root has no superior at the American bar.

Mr. Root is not the orator Rufus Choate was that Mr. Brady was, and his speech the other day was that of an advocate at the bar rather than that of a statesman in the forum.

Now, Elihu Root knows that. Every statesman in congress who has sense enough to put up a record of draw-bars, or herd a flock of geese, knows it; but here comes Elihu Root, a lawyer, and he is a lawyer.

When he got down, old friend Dr. Jack Gallinger must nominate the Hon. Root for president. It is not intended to reflect on the personal integrity of Senator Root. Doubtless in vulgar things of moment or to him he is honest all right.

And so you see the Hon. Gallinger, as usual, has made a mistake. He has nominated a man who is not a man of the States. He proposes to nominate for president of our glorious republic "Walt Whitman" for vice president, and a for-Whitman, London, for vice president, and a for-Whitman, London, for vice president.

What is the matter? When my neighbors get up in the morning they are sour and grim as can be. And now they are their faces adorning the streets.

Quips and Witticisms. One morning after the street organs set a dog-like noise across Washington Post March, John Philip Sousa, an Irishman playing the march at a dog-like noise across Washington Post March.

Mr. Root of Kentucky, by G-S, sir, came the answer in claret and commanding tone. "To what purpose does the gentleman rise?" asked Schurz.

And who are you, anyhow? he exclaimed. "I am Mr. Root," exclaimed the bandmaster. "I composed that march. Don't mind my address, you friendly band?"

And the old farmer was making his usual weekly call on Mr. Wiggins. "I got a basketful of the last now that by the time I get to the first—National Food Magazine."

It is an interesting fact that the number of years given by this method increases with the geological age of the specimen used. One from the end of the Tertiary gives 6,000,000 years; one from the Eocene, at the end of the Cretaceous, 10,000,000 years.

GOOD ROADS

III.—A Three Billion Dollar Job. BY FREDERIC J. HARRIS.

The joint congressional committee on federal aid in the construction of good roads is composed of Senator Jonathan Bourne, Jr., chairman, Representative George Denon, Swanson and Overman, Representatives Shafter, Clegg, chairman, and Representatives McMillen, McClintock, Madden and Austin. The secretary is A. W. Preston, with John Shafter as associate secretary.

To begin with, the proposed bill provides for a United States highway commission, to be composed of the chairman of the committee on good roads and post roads, the chairman of the house committee on good roads, and the secretary of the highway commission.

To be granted, however, by federal and state co-operation, the highway commission would be authorized to have ready for its use a fund of \$100,000,000 of United States bonds for the first year, to be sold in installments of \$20 or multiples of that sum, and to pay semi-annual interest on the bonds at 3 per cent per annum.

In order to properly apportion the fund the United States highway commission would ascertain the total value of the public highways in each state, and the total mileage of public highways in each of the several states, and would compute the percentage of the total of each of these four factors possessed by each state.

Senator Bourne gives the following figures for the states which would be entitled to the largest share of the fund: Illinois \$24,000,000, Texas \$20,000,000, California \$18,000,000, Missouri \$16,000,000, and New York \$15,000,000.

Whenever any state shall apply for its share of the United States highway fund, but not to exceed 9 per cent of the whole amount in any one year, it shall have available for its use a fund of \$100,000,000 of United States bonds for the first year, to be sold in installments of \$20 or multiples of that sum, and to pay semi-annual interest on the bonds at 3 per cent per annum.

Thus, the federal government would be paying on the state bonds deposited with it. The act provides that the entire amount of the fund should be used from time to time as the general funds of the United States are used.

On the first of February of every year each state would receive from the federal treasury a sum of money equal to 2 per cent of the bonds which it has on deposit under the provisions of the proposed act.

By depositing their bonds with the federal government, the states would be getting the advantage of the federal government's credit, which is 3.57 per cent, over the rate of 3 per cent which they themselves could secure if they were to issue their own bonds.

ATLANTA FINE PLACE FOR U. S. BANK, SAYS FINANCIER

Arthur E. Childs, of Boston, Can't See Any Other City's Claims

Atlanta is naturally the logical place in the south for the proposed bank. There can be no question as to that, and Atlanta bankers should feel to their credit that the organizing committee will not decide to build a new building, or to locate at the Georgian Terrace Thursday.

Mr. Childs in passage as well fitted as any man in the country to discuss the financial situation. As president of the Columbian National Life Insurance company, which has large interests in Georgia, and the south, he is in touch with Atlanta affairs and acquainted with the Massachusetts Light and Power company, which has enormous property and other public utilities in the Southeast, one of Boston's largest hotels and a director in numerous other corporations in the South.

Mr. Childs is chairman of the committee for the south's regional bank, and it is certain that he will be a strong supporter of the local city. The bankers should have a clear cut statement that Atlanta is the clearing house for the vast majority of the south's financial and not an artificial center of the ebb and flow of money. This will be the strongest argument Atlanta will not fight on. Certainly Atlanta is able to do it.

Wherever a regional bank is established the public will have a right of preference, for it will be owned by national and other banks, and other members, and will carry their accounts and not individual banks. It will be on the tenth floor of an office building which will be a million dollar building, and it will be remembered, too, that the bill provides that the regional bank shall establish branches, presumably one in each of the states of the South.

The regional bank will be another step toward the final liquidation of the thinking public's confidence in the power of the money trust of the country. It is a step toward the final liquidation of the money trust of the country. It is a step toward the final liquidation of the money trust of the country.

Some apprehension has been expressed, it is said, "that the regional bank committee should have an advisory committee on the administration and earning power of the corporation." The fact that several banks have withdrawn from the board of a corporation has two ill effects. First, it assumes because of his wealth and position directed to the affairs, in spite of his ignorance of the details of the business.

These withdrawals will prove best for the corporation, leaving strong men, well versed in their business, to control the companies' affairs, and in all things run it will prove best for the bank also, as the increased earning power of the corporation.

TO SOUND DIPLOMATS ABOUT NAVAL HOLIDAY

Advocates of Project Will Seek Views of Foreign Nations on Proposition

(By Associated Press.) WASHINGTON, Jan. 8.—Diplomats in Washington may be sounded by congressional advocates of a naval holiday with a view to getting expression from foreign governments in support of the project. Since the passage by the house of the Hooper naval holiday resolution and the introduction of a similar resolution by Senator Thomas of Colorado, advocates of suspension of naval construction for a year have been planning a campaign to bring the proposal to a definite conclusion.

Tener Defends Organized Ball Against Feds

New President of the National League Says Reserve Clause in Contracts Will Stand--Believes Public Will Support Them Against the Invasion Which Is Financial Venture

(By Associated Press.)
CINCINNATI, Jan. 8.—President John K. Tener of the National League at a meeting of the directors of his organization here yesterday, issued a statement in which he prophesied that public opinion would be on the side of organized baseball.

Pointing out that the Federal league attacks upon organized baseball have been confined to two points and that the reserve clause was invalid and the other that the public had no right to demand that the Federal league be organized as a public utility.

The statement follows: "Baseball today is a public utility and very extensive to organization. Such organization should be organized and will preserve and perpetuate the game to and for the American people. Nevertheless, organized baseball is being attacked today by the Federal league which desires to reap commercial benefits therefrom."

Today, however, finds baseball more completely and thoroughly organized than ever and, therefore, is able to withstand and combat the attacks that are being made upon it. The Federal league does not base its attacks upon the broken contracts of players, takes no heed of account of the most-loving public or the well-wishes of the national game, and I believe the disappearance of such a public utility from the public mind will count far more against this movement and in favor of the public than any technical decision in the courts, even though such courts should sustain upon the technicalities of equity of the reserve clause.

In point of fact, it is well known that the legality of the present form of equity was established by the supreme court in Pennsylvania in 1907.

With respect to the allegation that either the National or American league or both of them as parties to the national agreement are illegal combinations or trusts in restraint of trade or in violation of antitrust statutes, it is difficult to take such declarations seriously. Experience has demonstrated that this national agreement, existing between and satisfactory to all leagues, has done more to place our national game foremost among all outdoor sports the world over than any other influence.

Under the provision of this agreement a player has his day in court and the national commission does not take any opportunity is given him for a fair, impartial and thorough hearing to the end that full justice may be done him.

We naturally and properly, as sanctioned and sustained by our courts of justice, object to players breaking their contracts, but if the proposed Federal league will draw its supply from the growing field of baseball players coming to the front every year, it will meet with opposition.

"Speaking for the National League, I may add that we propose to continue our policy of not making any deal with players and with the public and we are so definite in our actions will meet with general approval and approbation."

The proposed meeting of the national baseball commission did not take place today, partly owing to the lengthy meeting of the directors of the National League and because President Tener had to leave on an early afternoon train.

The National League's request granted to the Baseball Players' Fraternity deals entirely with the contract in connection of the present contract in several particulars. This was discussed by the league yesterday and it was announced that the old contracts could be signed upon the new

Comanche Frank Won Rich Stake

Pointer Owned by U. R. Fishel and Handled by J. M. Avent Cops All-Age Stake

GRAND JUNCTION, Tenn., Jan. 8.—Comanche Frank, pointer, owned by U. R. Fishel, of Hope, Ind., and handled by J. M. Avent, of Hickory Valley, Tenn., today won the all-age stake of the United States Field Trials club in a close race over the pointer John Trotter, the entry of A. J. Curtis, Belton, Tex., and handled by C. H. Babcock, Three Notch, Ala. John Trotter was placed second, and the actor, Brunswick County, owned by R. K. Brown, Brunswick, Ga., and handled by E. D. Carr, LaGrange, Ky., third. Ten 1/2 day dogs started.

The final race between the two pointers was a nip and took thirty for an hour and three-quarters in which both were about even, but in the final round, Comanche Frank, the new star, ran a more snappy race than the Texas dog.

Comanche Frank won the same stake last year and the championship on pointer chickens in North Dakota in 1911. John Trotter won the prairie chicken championship last September and the continental and national all-age stakes this season besides finishing second in the Georgia trials.

One of the twenty-one dogs entered in the derby ran their first heats this afternoon.

Thomas Bond, Jackson, Tenn.; Charles B. Plerson, Terre Haute, Ind.; and Dr. H. S. Ashby, St. Louis, are acting as judges in the United States trials.

Records Show Many Trap Shots

NEW YORK, Jan. 8.—The records of more than 300 amateurs and professional trapshooters are included in the official averages for the season of 1913 as announced today by the Interstate Association for Unemployment of Trap shooting. The averages are based on a minimum of 2,000 targets and the list is compiled from the records of more than 7,000 trapshooters who competed at registered tournaments during the past year.

J. C. McGinn, national amateur champion, leads the army of amateur shooters with an average of 39.7, having broken 5,111 targets out of 6,000 shot during 1913. High average of 40.5 was attained by W. H. Hearst, of Guthrie, Okla., with a record of 5,206 targets out of 6,155 shots for an average of 37.6.

Chance Hertels Sale Of Roy Daniels

C. C. McGinn, owner of the Denver team, was here two weeks ago, said Chance Hertels, who had been asked about the sale of the team. Hertels, who is the manager of the Denver team, said that he had heard nothing of a plan to transfer Roy Daniels to the Denver team. Hertels said that he had never seen Hertels as a manager nor as a player.

New House for Nooga Golf Club

(Special Dispatch to The Journal.)
CHATTANOOGA, Tenn., Jan. 8.—Plans have already been drawn to rebuild the club house of the Chattanooga Golf and Country club, which was totally destroyed by fire last Saturday night. The former structure cost approximately \$15,000 and the new building according to architect's plans which are already under way will cost approximately \$20,000. The old building was in a sorry state of repair because of its age and the new structure, besides having the same, will be also one of the most complete and best equipped in the south.

Manning Made Member Of Olympic Committee

NEW YORK, Jan. 8.—President Robert M. Thompson, of the American Olympic committee, Wednesday announced the appointment of Dr. G. Barton Manning, president of the United States Football association, as an additional member of the committee. Dr. Manning's appointment was in recognition of work accomplished by the football association and to aid in plans for a representative association football team to represent this country at the Olympic games at Berlin in 1916.

That Mexican Situation Would Be a Cinch For a Bunch of Hockey Players.

Local clubs this year but it is possible that some arrangement can be perfected whereby these features will not be interfered with. R. M. Watkins had already taken up the matter of date with the tournament committee of the southern golf association.

Feds Make Offer Soccer Game To Three Naps

The forthcoming game between the Lithuania and Foot & Exotic soccer teams of the Georgia State league will bring to the city one of the very best teams of the entire south, possibly one of the best amateur teams in the United States. The Lithuania team is composed of players who have played the game all their lives, all of them learned the game in the home of soccer football, Great Britain, and every man on the team is a pastmaster at playing his position and are in splendid physical shape.

Chip Is a Marvel

Speaking of pugilistic matters, hearken a moment unto the glances of George Chip, who at present looms large among middleweight boxers. After having knocked out some eight or ten opponents, Chip still declines to claim the championship of the Federal league, but he is a real cause for feeling that Chip may be a real fighter. Most of this begins claiming something as soon as they have acquired a full ring record.

Another Colleague For Connie

Connie Mack has just signed another college twirler. O. Connelley is said to know the middle names, favorite flowers and private habits of more college ball players, who look like they will arrive at some future date, than all other big league managers combined.

What's The Use?

The party who penned that expressive phrase, "What's the use?" must have had a first-hand acquaintance with the "white boy" situation. For instance, since that New Year's battle in Fresno a peace-loving and law-abiding public has been doing a little handshaking over the fact that Unhatched Smith had performed a service by eliminating Arthur Peltz from further notice. Now comes Peiky, who says he has got it all again from the bottom. Quo usque tandem, Oh, Buddha? Or words to that effect.

It Aids Not

Yale has recently won the college chess championship, but supporters of the Blue have not shown any special enthusiasm over the fact. Anyway, Charlie Brickley wasn't in the lineup and what the satisfaction of winning, unless you can get one over Brickley.

Jimmy Sheekard is going back. James can or still be? He had an occasional high fly in the outfield, and he can sometimes catch a true-fighting baseball, but he can't jump as high as Sheekard. Sheekard reports that he will jump to the Federal League, reflecting discredit on his record of eight jumps in deep gone.

Penn. Would Land Five Men On All-College Team

PHILADELPHIA, Jan. 8.—The majority of the athletes who were selected as the members of the accompanying 1913 All-America college athletic team are entitled to their places without any question. They have proved during the past year that they stood far above all others for their positions.

All-America College Team, 1913

TRAY SHOTS AT PORT TARGETS

Successful Opening.

The opening of the local boxing season Tuesday night passed off in a very satisfactory manner. In the main both Whitney and Mack gave as good an exhibition on the scales as they were capable of. Whitney was the better of the situation at practically all stages, but the battle was an interesting match to watch. True to his reputation, Whitney was in the fighting all the while and not once did the crowd make any show of disapproval.

The preliminary bouts were also fair for the most part, although neither contest showed a boxer of much merit. Jimmy Grant, the New Jacksonville fighter, appeared to better advantage than any of the others. White Kid Superior also made a very good showing, though his opponent refused to stand before him enough to develop any interest.

CHIP IS A MARVEL.

Speaking of pugilistic matters, hearken a moment unto the glances of George Chip, who at present looms large among middleweight boxers. After having knocked out some eight or ten opponents, Chip still declines to claim the championship of the Federal league, but he is a real cause for feeling that Chip may be a real fighter. Most of this begins claiming something as soon as they have acquired a full ring record.

President Dave Fultz, of the Baseball Players' Fraternity, is a quiet reserved sort of fellow, and is not very much blither, when it comes to gridding out idle chatter about the affairs of his organization. He was when Dave gets into the inner recesses of his private sanctum, he chuckles slyly at the thought of the Federal league invasion, but at the time the frat is trying to get certain concessions from the managers.

ANOTHER COLLEAGUE FOR CONNIE.

Connie Mack has just signed another college twirler. O. Connelley is said to know the middle names, favorite flowers and private habits of more college ball players, who look like they will arrive at some future date, than all other big league managers combined.

It is conservatively stated that a cross between an Appaloosa and a whop and a reading of the minutes at a meeting of a Chinese Laundry men's association would prove no more weird than a composite list of the colleges represented on the Athletics roster.

Just look at 'em. There are Collins of Columbia; Coombs of Colby; Plank of Gettysburg; Bender of Carleton; Barry of Holy Cross, and the latest is Burr, of Williams. Possibly there are others. Should these athletes go right down the line taking turns in giving their college yells, before the last man had finished Connie would have had his talent time to make a run out to Old Slaw and sign up one of O'Connell's mythical prodigies.

No, Frank Baker doesn't carry a college diploma. The Trustees Thunderbolt lugs no excess baggage other than a ruffish eye, and hair-trigger muscles properly tuned for whaling the ball.

WHAT'S THE USE?

The party who penned that expressive phrase, "What's the use?" must have had a first-hand acquaintance with the "white boy" situation. For instance, since that New Year's battle in Fresno a peace-loving and law-abiding public has been doing a little handshaking over the fact that Unhatched Smith had performed a service by eliminating Arthur Peltz from further notice. Now comes Peiky, who says he has got it all again from the bottom. Quo usque tandem, Oh, Buddha? Or words to that effect.

Charlie Comiskey and Johnny McGraw are credited with being among the smartest men in baseball. What's known but what their siding with any of the star players of the Orient and what the result leading over the high seas of the Orient, at present.

IT AIDN'T NOT.

Yale has recently won the college chess championship, but supporters of the Blue have not shown any special enthusiasm over the fact. Anyway, Charlie Brickley wasn't in the lineup and what the satisfaction of winning, unless you can get one over Brickley.

Jimmy Sheekard is going back. James can or still be? He had an occasional high fly in the outfield, and he can sometimes catch a true-fighting baseball, but he can't jump as high as Sheekard. Major League Gardener Who Would Handle Destinies of Nashville Club Has Notable Career—Holds Record of Jumping One Team for Another Eight Times

According to those who know him, Sheckard is one of the real veterans of the game. He has been in the game continuously for fifteen years, and the less is not going to be saturated at the hands of the younger generation.

Reports are true this veteran of more than a dozen summers beneath the pine will follow the trend of the game and seek to iron out the wrinkles of the modern game. Sheckard is a man who has been in the game since the days of the National League...

"PASHING THE BATTER." A bibe on second base and third and try Cobb with the stick--Reminds there like a stump: The thrill dies out beneath the soil Which settles on the court--This may be scientific ball. But blast me if it's sport.

There are still many arguments extant as to whether or not the esteemed pitcher should be allowed to purpose walk a dangerous batsman in a pinch. The experts and such consider this a scientific move and pooh-pooh any suggestion to make the pitcher stick one in reach. They claim that it is scientific baseball and a part of the game's program.

Cotton States Moguls to Meet For Organizing

Meeting Will Be Held in Meridian on January 10--Circuit Will Be Formed at Meeting; President Redus Will Not Accept Re-election

ABRIDIAN, Miss., Jan. 8.--All eyes in a Cotton States circuit are centered on the coming directors' meeting of the Cotton States league in this city on January 10. The circuit will be formed at the meeting and a president elected to succeed President J. E. Redus, who declines that he has had enough and will not accept re-election under any consideration whatsoever.

Homewood Club Declines Match

NEW YORK, Jan. 8.--The Homewood Country club, near Chicago, which has been anxious to obtain the privilege of holding the national amateur golf championship of 1914 and was placed on the list of eligible courses for the open championship instead, has refused to be considered in connection with the last named event. Massachusetts, Michigan, while not anxious to hold the open tournament will take it if the vote of the delegates at the annual meeting of the United States Golf Association in this city tomorrow evening decides that way.

Doc Seabough Has Quit Game

(Special Dispatch to The Journal.) MEMPHIS, Tenn., Jan. 8.--Charley Seabough, familiarly known to the fan family as "Doc" is through. The veteran has caught his last game of ball in fast minor company. According to his own statement it is doubtful if he will ever again don the big mitt and mask in professional circles. When the Memphis club notified Doc that warfare had been obtained on him, and that the membership of the Dallas club was open to him if he cared to advance from the ranks, although in an appreciative letter replied that he was through with the game, and requested that all negotiations be called off. The catcher is a skilled mechanic in the employ of one of the big railroads in Springfield, Mo.

Internat'l Polo Match Assured

Now Certain That Match Will Be Held, but Dates Not Yet Fixed

NEW YORK, Jan. 8.--Although no actual date has been named for the international polo match between the Americans and the English, the polo association, chairman of the polo association, has announced that the match will be held in New York or California, and that the date will be fixed in the near future.

Frank Expelled From League

FRANK EXPELLED FROM LEAGUE. That fact at the meeting of the National association, held in New York, Frank was expelled from the league, and it was assumed that Frank's name would be dropped from the list of members. The expulsion was a surprise to many, as Frank had been a member of the league for many years.

TOUGH ANGLE

It's a tough angle that encompasses correctly. We have drawn ten dozen suggestions in the last few days to how it should be worked. One non-combatant suggests that the baserunner advance a base after a pass just as he would on a balk. The ideal arrangement would be to have the pitcher not be forced to stick one squarely over the plate or even out a corner, and that he should be allowed to pitch three feet wide or beyond all reach. In this way a pitcher with control could force the batsman to walk or take a swing at a bad strike that would still be within poling distance.

LINES TO COL. G. B. SMITH

This Gunboat Smith may not be Fitz O'Connell in his prime, but he is a good one. No class; wonder with his mits. Beyond the scope of time; First lead-up with the masher; Across the hills and hollows. The sergeant, still Mr. friend; Like forty million dollars.

SAVING SOMETHING.

It is well enough for the fans and war scries of New York, Chicago, Philadelphia, etc. to jeer at Josh the painful and at times highly dangerous attitude assumed by the fans and scries of Cincinnati, St. Louis, etc. But suppose for example, that year after year New York or Chicago was able to lampt nothing but tail-end baseball--or the brand that after mid-day settles around the foot--the catcystic shriek and howls about "this city not standing for a losing team" would turn Cincinnati St. Louis into a boding lull by comparison.

AN ENGLISH AMATEUR.

England figures that our Mr. Outint is not an amateur because he was a caddy up to fifteen years of age. Also because he is drawing too much coin for writing articles pertaining to his game. We'd like to hear from abroad as to this--is it true, or not, that England's amateur golf champion demands a certain sum each year from manufacturers for writing with a certain golf ball? We happen to know that when an American writer penned a request to Mr. Hilton for certain information, the only reply received was about this effect: "How much do I get out of it? And kindly mail check in advance."

NO DOUBT.

This is the oddest of all. The cruelest, I see. When you find out a working drive--And you're a masher. In the meanwhile, journeying in pursuit of a brand of big, we are more than anxious to meet the citizen who first spoke of it as "the SUNNY South."

3 More Crackers Sign Contracts

Manager Hill Smith has just received the contracts of three more members of the club for next season. The contracts were signed by Ham Reynolds, Ed Schmitt, and Ed Walsh, and they will be in effect for the next season.

Two Clubs Surrender Births

In the settlement of the matter, the two clubs have surrendered their franchises, and there was quite an argument before the league was taken into the league. The matter was settled by the league, and the two clubs have been expelled from the league.

Outint Doesn't Make His Living Out of Golf.

Outint doesn't make his living out of golf. Hilton, of England, amateur champion does. Where's the talent of professionalism, if there is any in either man?

Promoters Would Match Smith and Johnson

San Francisco, Cal., Jan. 8.--A telegram has been sent to Jack Johnson by promoters here offering him a fight with Gunboat Smith for the heavy-weight championship of the world. The fight would be held at the Hotel in Mexico City, and Johnson would have to travel to California on July 4 next. Smith, it is said, is willing to bind the match.

Gilhooley Has Signed His Contract for 1914

New York, Jan. 8.--President Frank Farrell of the New York Amateur league club, announced last night that Frank Gilhooley, the young outfielder, purchased from the Montreal club for \$30,000 last season, had signed a 1914 contract. Gilhooley will report on Houston, Tex., on March 1.

FOR SALE—REAL ESTATE

J. P. STURGEON & CO. REAL ESTATE BROKERS

\$500 TO \$1,500 INVESTMENTS

Have you ever figured what sort of an investment you could make with \$500, from \$500 to \$1,500?

The safest and surest opportunity a person with this capital has is to buy a piece of real estate that will bring him a fair return and will be the best.

The cost of a five or six-room house in the best neighborhood where it is built, or for that matter, other side of the city, is from \$500 to \$1,000.

The Real Estate Field

Important South Side Sales Announced Thursday, Showing Activity is Not Confined to Any One Section—Atlanta Will Bid for National Real Estate Men's Convention.

That real estate activity in Atlanta is not confined to any particular section at the present time is proven by the announcement of several south side sales, coming right on the heels of property exchanges on the north side.

A SACRIFICE

PEACHTREE ST. PROPERTY \$3,000 CASH

Turns the Deal. The property is in the block with the Georgian Terrace hotel, has a depth of 140 feet to an alley. Balance can be arranged easy. A sure profit. See us quick.

17 ACRES on nice truck farm, seven miles from city; splendid water and branch, with 300 fruit trees, good two-story house in fine condition; chicken barn with runs all wired in. Land in high state of cultivation. Price \$37,500, on terms.

\$600 PER ACRE

TEN ACRES on Howell Mill road, with about 600 feet frontage. Adjoining property sold for \$900 per acre. New car line will soon be built on this road. A good bargain.

26 ACRES FOR \$7,000

ON MARIETTA car line. Has sand bed worth many times the price asked. Suitable to subdivide. This is a bargain.

WE HAVE a semi-central piece of property in block and a half of Peachtree street, on lot 60x200 feet, with three-story brick building, that we can sell at a bargain if sold at once. It now pays forty-five hundred and seventy-two dollars per year, and after the first of September, 1914, the rents go to five thousand dollars per year, or over 12 1/2% investment. This property is right in town, and is one of the best investments that will be offered. Call for Whitten, Ivy 164.

SUBDIVISION

WE BELIEVE we have the best tract in the city for subdivision, and that it is absolutely the best on the market for quick profit. It is located in a rapidly growing splendidly elevated and strictly white section. Streets and sidewalks already graded. There is not a shovelful of dirt to move. It is ready for market and there is a handsome profit for someone within ninety days.

\$1,900—LAKEWOOD HEIGHTS—\$1,900

MY BUNGALOWS are the talk of the town. Pay me \$18.50 per month with as much cash payment as you have, and assume a small loan at reasonable interest. You are now paying \$25.00 per month "RENT" for this house on some cross street in the city, the car fare is the same; your neighborhood is no better, and the "difference" is a "NOTE" each month instead of a rent receipt. Let me tell you about these homes—don't worry about cash payment, but see me at once.
