Men & Women Who Appreciate the Beauty & Service-ability of Fine Oriental Rugs Are Invited to Share in the

Annual Fall Sale of Oriental Rugs

With Its Unquestioned Savings of a Fifth to a Third

SHIRVANS—light shades and designs, about 31/xx6 ft.

MOUSSOULS—Small all-over and medallion patterns, ½x4 ft.

BELOOCHISTANS—deep, rich, dark red colorings, 3x5 ft.

Rugs for Hall Strips
include rich, mellow patterns in the handsome Irans, Carabaghs, Hamadans and Kurdistans. Sizes 3x10 feet to 4x15 feet.

—New connections established with the largest and foremost dealers in Oriental Rugs in America make this Annual Sale of Oriental Rugs an event of rare importance to lovers of Oriental Rugs.

—Because the unusual assemblage of rugs holds for them a rich store of delight, furnishing inspiration to the finer setting of their homes.

store of delight, furnishing inspiration to the finer setting of their homes.

—Because the prices are a fifth to a third less than we could, or would, customarily ask.

—The importers we spoke of seek a larger volume of business. To induce us to buy more rugs than we usually sell, they make us decisive price concessions.

—We also seek a larger volume of business. The price concessions we received we pass on to you. Also we forego part of our own profits. In a sale wherein we dispose of hundreds of rugs, the aggregate profits justify a modest profit on indirectal rugs otherwise impossible. Though these rugs are art treasures, we treat them as regular merchandise—pricing them an exceedingly thir margin of profit.

—The addition of these many new rugs to our stock

—The addition of these many new rugs to our stock forces a price revision downward on the many other rugs in stock. Their new price tickets read from a fifth to a third less than formerly, the greater reductions being on odd numbers.

—Most of the rugs in the sale group themselves under one of these headings and sizes:

IRAN—Genuine timed mellowed antiques, 4x7 to 5x8 ft.
KIRMANSHAH—of surpassing beauty and excellence, 4x5 ft.
SAROUKS—softer and deeper tinted than Kirmanshahs. 4x7 ft.

Carpet Size Rugs

Ideal rugs for library or living rooms. Their short, close pile insures lasting service. Mouskabads, Mesheds, Mahals, Serapis, Anatolins. Sizes 9x12 feet to 10x15 feet.

PRICES—Persian rugs are unlike other merchandise. Prices mean nothing until you see the rugs. Therefore, we have purposely omitted prices. Savings, however, generally run about like this: \$15 from \$20; \$24 from \$30; \$20 from \$30 in several odd rugs;\$40 from \$50; \$67.50 from \$85; \$110 and \$115 from \$150.

The New Goods Come First to Rich's Because We Go After Them

—The buyers are back from New York; new goods are tumbling in at our doors; every day is a revelation of NEW STYLES.

every day is a revelation of NEW STYLES.

—"The buyers are back from New York," did we say? Aye, and gone again. Yes-terday the Ready to Wear and Millinery buyers sped away to, the eastern and New York markets. The wisdom of their earlier pur-chases has been confirmed by the largest September sales in our history. Now they are off to market to bring back even newer and later styles.

—Stick a pin here:—The new goods come first to Rich's because we go after them.

Women's and Misses' Suit Sale

For Thursday, will be one in which you can only appreciate its large scale and completeness by view ing the suits and styles we are going to offer at \$19.75

e going to offer at \$19.75

Here are suits our buyer spent months in bringing to you more complete in every detail and finish than suits were even before offered in a ready-to-wear department. They are wonderfully well tailored, lined and finished. We want real critical women to come in and examine them. The assortment of these Fall Suits embraces mannish worsted materials, Serges, Diagonals, Prunella Cloths, Sharkskin Cloth, Eponges, etc.

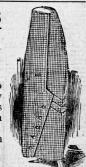

The smart new mannish cutaway coats are much in evidence as are also the semi-cutaway, Russian blouses, etc. The skirts are of course made on straight lines, many of them being draped and slashed—all of the most desirable shades are respresented—you will get a swell \$25 Suit here tomorrow if you but come,

To assemble such vast stocks of suits, dresses, skirts and coats and to see that each separate garment has about it some style point (and always true worth)is no mean undertaking. That it has been successfully consummated is a matter that you may prove to your own satisfaction. "New Clothes" at Chamberlin-Johnson-DuBose Co's, ARE new, delightfully new and captivating. To tell you HOW is a task that balks the advertising pure and leads it to the commonplace of asking you to see---for this you must, if you would know just how varied and charming the new fashions are.

There is a scope and breadth to this display that lends finality to choice.

It is true of the simple and inexpensive things, just as it is of the elaborate and gorgeous creations---for one is as much a part of this store's business as the other--- and both are done with characteristic thoroughness---as instanced by

The New Woolen Dresses At \$5.75, \$10, \$15 to \$25

A display calculated to meet all demands the women of Atlanta could make.

It begins by showing at \$5.75, little serge dresses that the college young Miss will need for general wear, rather simple and very neatly made. Now comes the epounges, Matilasses and wool crepes in navy copenhagen, Russian and olive green, mohogany and black and new trimming ideas that shows in sashes, collars, yokes and the new lines—skirts very wide around the hips, and narrow at the bottom. All are draped.

New Coats At \$10.00, \$12.50 and \$15.00

The especially fine coat news today must concern NEW short coats.

They are in a word jaunty.
Young folk will like them.
Boxy affairs that in length, strike just above the

knees.

They are worked out in chinchilla, polo cloth and loose bouquets—big collars, some are belted. India red, Russian green, Arab and Copenhagen are the favored colors.

Atlanta will quickly adopt them now.

At 48c \$1.00 \$1.25 and \$1.50 Aprons---white, several styles, daintily trimmed, they are 48c because they are a bit soiled.

At 49c \$1.00 and \$1.25 Brassieres---lace and embroidery trimmed. So priced because they are an odd surplus.

An Appeal to Atlanta's Heart.

Inless the Associated Charities recei d in the form of cash contributions, it will h en to discontinue its vitally important work. e demands upon this organization have increase ring the past year as never before. It has serve greater number of people, a greater number of man needs; it has produced more results for the etterment of individual lives and for the commu-ity's well-being. But its financial support instead increasing has relatively decreased, so that today It is face to face with a crisis in its affairs.

It is in part the very efficiency with which the harities has covered its great field of endeavor that as brought this condition to pass. A namby-pamby stitution which dealt in sentiment rather than in ectical service and which was content to relieve mmediate wants without going to the source of mis-ortunes and giving constructive help might worry ng on occasional contributions. But the Asso lated Charities, it should be remembered, is workthe not merely for a day but for the years, not merely to appease the beggar's hunger but to restore and sustain hundreds of stricken or disheartened

man lives. Such an undertaking, it need scarcely said, requires steady, adequate support. The Atlanta people cannot afford to withhold this apport and suffer the Associated Charities to die. hat would be a disgrace upon the community's ame and a disaster to its social and civic interests hundred thousand dollars given as promiscuou ns, however worthily intended, could never approxi ate the substantial good of a tithe of that amount ed through this far-sighted, thorough-goin

From Mud to Millions.

A newspaper correspondent recently made a trip through what is known as "the Black Swamp country" of northern Ohio, a region extending over five countins in the valley of the Maumee river and, in years gone by, so beset with hogs and overflows as to be untillabbe and practically worthers. "He traveled four hundred and thirty-sk miles in all," relates the Louisville Courier-Journal, "and he found that the farmers in that district were averaging thirty bushels of oats, twenty-five bushels of type, two and a halt tons of clover and more than four tons of alfalfa. He saw doesns of fields of wheat that produce thirty-five bushels to the acre." Indeed, the Black Swamp country, once useless and dangerous to public health, was found to be the most fruitful and profitable soil of the state's entire agricultural area. the state's entire agricultural area

The correspondent remarks that this is "an object lesson in getting something out of nothing." It might more truly be described, however, as an object

lesson in getting something out of nothing." It might more truly be described, however, as an object lesson in putting thought and enterprise into a latent but fertile opportunity. Swamp lands are in fact a great treasury of potential weath, a sort of Ali Baba's cave, stored with all manner of hidden richea, awatting him who comes with the open steame of science and purposeful skill. It was only some two decades ago that this entantial contraction of the state. When its timber had been cut away, the remaining morass was worse than useless; it was a source of malarial disease and a detrigent to the value of all adjacent property. But a movement to drain the swamp was inaugurated. Competent engineers were employed to make preliminary surveys. Then interested communities with the aid of the state undertook the practical work of reclamation. The land was steadily redeemed from its original condition. Durable roads were built. Farms sprang up here and there, more numerously each season. The district became widely known for healthfulness as well as fertility. Every acre within its houndaries one in value, yielding substantial profit to the individual owner and an incomparable larger tax revenue to the state. Today the Black Swamp country is one of Ohlo's richest sources of food supply and prosperity. What an example is this to Georgia, whose swamp

of Onlo's richest sources of food supply and prosperity.

What an example is this to Georgia, whose swamp and overflow lands comprise one-fourteenth of the etale's entire area! What has been done in Ohio has been done and is being done in many other purts of the country; and it can be done here with equal case and advantage. The state could make no sounder investment than to provide for the drainage of these now worthless but potentially valuable ands. It is estimated that Georgia's swamp and overflow lands average less than a dollar per acre in value; it is said, indeed, that in many places they can actually be purchased at two or three dollars an acre. State Geolegiat McGallle has shown that if these lands were drained, the state, instead of receiving as it now does an annual income in taxes to the amount of thirteen thousand, five hundred dollars, should receive six hundred and seventy-dive to the amount of thirteen thousand, five hundred dollars, should receive six hundred and seventy-dive the state geologist adds, "that this estimate is made on the supposition that all the swamp and overflow lands be reclaimed, which will probably never be completely realized; invertheless the ratio of increase in taxes to the state will hold good for every acre of land drained and put under cuttvation."

From a purely bustness standpoint, it is evident that the state and ill afford to neglect this innoriant that the state can ill afford to neglect this important that the state can ill afford to neglect this important that the state can ill afford to neglect this important that the state can ill afford to neglect this important that the state can ill afford to neglect this important that the state can ill afford to neglect this important that the state can ill afford to neglect this important that the state can ill afford to neglect this immortant that the state can ill afford to neglect this immortant that the state can ill afford to neglect this immortant that the state can ill afford to neglect this immortant that the s

From a purely business standpoint, it is evident that the staw can ill afford to neglect this important and invitting enterprise. The increase in tax values alone would more than warrant a liberal appropriation for drainage work; and to that increase must be added the inaclustable good that would come to public interests in general and, particularly, to agriculture.

Constructive Legislation

BY DR. FRANK CRANE. (Copyright, 1913, by Frank Crane.)

Most laws are prohibitions. Most reformers want to prohibit somethins. Yet the history of law demonstrates that prohibitions between the prohibit of the prohibition is universally a failing.

The classical definition of law is that it "precentless what is right and prohibit what is wome." That is to say, it is positive and negative. It is the negative function of how that has been oversalled, because it is the prohibition has its place. It is good for children, it is a "school master." It is useful as a temporary prop until the man is able to stand alone. The law of Moses were and permadent, it is useful as a temporary prop until the man is able to stand alone. Personal Liberty

"You shall know the truth, and the truth shall make you free."

A cold, fierce worm of the sea—
What hangman shall wait his host

Of butchers from coast to coast,

New York to the Golden Gate—
Lust-kings with a careful plan—"
CHIEF BEAVERS smashed their plan in Atlanta.
September, a year ago, he made it impossible for them in the Capital
of Georgia to follow that trade which demands the seduction of girls. He has done more: his success has taught that one fearless and honest official can end the reign of "lust-kings" in other cities.

Little Rock has followed his example.

Birmingham has notified the world that her houses of shame must

And last week the Mayor of the Capital of Texas, Austin, in directing that the red light district close October 1st, pointed to the act of your CHIEF OF POLICE.

Cities and smaller towns seeing the work that he has done in Atlanta have thrown off the disgraceful yoke.

From Tacoma, Buffalo, San Francisco, Richmond, Nashville, Charleston, Mobile and other cities come pouring inquiries as to the work of your police force and its Chief.

"Lust-kings!" are a controlled.

police force and its Chief.

"Lust-kings" are aghast.

Their occupation of buying, defiling and selling girls and women will become a thing of the past!

They strive to stem the tide.

"GOLD, FIERGE WORMS" willing and anxious to enrich themselves by the sale of the souls of women and girls—these today are trying to poison your minds against your Chief of Police in THIS WAY they hope to destroy the discipline and efficiency of your police force. If word continues to go out that an honest Chief of Police having under him a body honorable men can cope with "lust-kings" and their kind, WHAT

WILL THEY DO?

WILL THEY DO?

They seek to undermine a man.

But not yet has the day dawned in Georgia—never will that day come in our State, when the criminal element can ruin a man simply because he loves honor more than gold.

Chief Beavers is safe. BUT OUR CITY and State have suffered.

God forbid that more damage be done!

The eyes of the world are upon the meeting of our Police Commissioners tonight—Wednesday.

You are not a fool: you know that neither the Chief, nor any of the men under him oppose or knowingly interfere with innocent love-making in our parks; you are not blind.

And squids cannot emit enough of ink to hide the truth, or obscure THE REAL ISSUES.

THE REAL ISSUES.

They are these—
For the third time charges have been preferred against one man now holding a captain's commission on the force. A second time the charges involve the relations of this man with women. Twice he has been cleared. If innocent, he should be cleared again. But this time he stands accused of improper conduct in one of our city parks where children play.

been cleared. If innocent, he should be cleared again. But this time he stands accused of improper conduct in one of our city parks where children play.

The man is married.
Chief Beavers suspended him.
What has this to do with the "just-kings" and their plans? EVERY—THING. The Chief must have power to prevent the contamination of our children's playgrounds; if a married man, an officer of our force, offends, DUTY DEMANDS the more that the Chief remove him. If the Board should condone such actions upon the part of subordinates, where would be the discipline of our force? Who would be responsible for the just contempt with which men would view the officers of the law?

And the plain-clothes men!
THEY WERE a part of the force before the Chief gave Protected Vice its death blow: the "just-kings" and their friends forgot the existence of these men and THE INTEGRITY of the police force when they sneered:

"He can scatter evil. He cannot control it. He will only make a mess."

mess."

But these men have handled the situation: they have controlled it.

Hence the effort to discredit them and take them away from the force—the attempt to cut off THIS EFFECTUAL ARM that has put the fear of God into the hearts of the pimps and panderers of the underworld and those whom these unspeakable creatures serve!

That FEAR will continue.

PERSONAL LIBERTY? God offers it: He has given it to you. Fear in the hearts of the white slaver and the "lust-kings" is not inconsistent with your freedom.

On the contrary the liberty which you, your sister, your daughter and family enjoy is wholly dependent upon the fear of the law impressed

with your freedom.

On the contrary the liberty which you, your sister, your daughter and family enjoy is wholly dependent upon the fear of the law impressed upon those to whom honor and a woman's name are meaningless terms. No man's personal liberty requires the sacrifice of the daughters and sisters of other men.

You will not be deceived.

"You shall know the truth."

The Police Board of the City of Atlanta will not play into the hands of the criminal element which infests every city in our land.

"The truth shall make YOU FREE."

A Fall Exhibit of Most Desirable Models From Best Corset Makers

Explaining Success of Allen's Corset Dept.

Our shelves are open to every worthy corset coming from manufacturers of reputation.

We have no obligations, therefore no handicap in buying the very choicest corsets, and in offering our patrons the very broadest opportunity for selecting the *suitable* corset from our

The corset business is advancing every day. Today it is an art. The right sort, a necessity.

The proper fitting of the corset, the individual choosing according to the figure, is even more important than your fashionable gowns. It is emphatically essential that the corset has the first fitting. Otherwise your good gown may fall short of its intended good lines.

If your figure is improved by the *Mme. Marielle*, that is the corset we fit you in, carrying every model of fashionable lines in stock; if the softer lines of the *Regaliste* suit you best, this is your corset. And so it is with the lace front *La Camille*, the *C. B.* and the *B. & J.*

Certainly such splendid variety as these well known makes would give a wonderful advantage in the selection of the correct corset model for your figure.

La Camille

The Front-Lace Corset With the" Ventilo" Back

The La Camille is the lace front corset we have adopted after considering various good ones. In doing so we reckoned with the best features offered. One of greatest importance is the "Ventilo" back, which is an elimination of the pressure on the delicate nerves of the spine, permits of a necessary circulation of air and at the same time furnishes a rigid support to the back.

We give special and professional fittings to all corsets sold.
